

PS 201 - Creating Citizens of the World

When you leave us
Your young ones,
We know what you expect
A day filled with learning, hard work
And respect.

When they enter
Our school's gates,
Eager to listen and to learn
A wealth of information and knowledge
They do yearn.

We welcome them
With open hearts,
No job's too big or small
We plan for their daily needs, we mean
Success for all.

With a brand new library
More than ten thousand books in place,
From the Robin Hood Foundation
Securing a strong
Literacy base.

Science and Social Studies
Where they question and explore
The world and its peoples,
Building tolerance
The more.

They work towards a future
One that's promising and bright,
Where they will make
A difference, where they will
Shine a light.

They understand in this vast world
Though many never share a name,
We celebrate our differences
But inside, we are really all
The same.
